

6-9
OCTOBER
2015

**ST. PETERSBURG
INTERNATIONAL
GAS FORUM**
YOUTH DAY

On October 6-7, 2015 within the St. Petersburg International Gas Forum «Youth day: dialogue of generations» took place. That event was urged to unite representatives of branch business elite and student's audience of leading universities of Russia and Europe for discussion of new vectors of development of gas industry and career opportunities for talented youth.

During the forum, a number of events took place:

- A meeting «without ties» with heads of the largest energy companies;
- Interactive sections: «Gas – the fuel of future» and «Gas hubs»;
- International Youth Contest «Energy: today and tomorrow».

The organizers of «Youth» day were public company «Gazprom» and «The higher economic school» of the St. Petersburg state economic university. Among partners and co-organizers of an event the leading world oil and gas companies also participated: Dutch «N.V. Nederlandse Gasunie» and «GasTerra», German «E.ON», French «ENGIE» (GDF Suez), - and also the International business congress (International Business Congress) and Energy Delta Institute (EDI). 13 higher education institutions of Russia, which are the academic partners, and basic higher education institutions of «Gazprom» have presented the student's audience from St. Petersburg, Moscow, Ukhta, Ufa, Tomsk, Tyumen, Yakutia, Kazan, and delegates of the European higher education institutions from Holland and Germany.

YOUTH DAY. DIALOGUE OF GENERATIONS

WORKSHOP

GAS HUB AND GAS EXCHANGE: A FACILITATOR OR A THREAT TO THE GOLDEN AGE OF GAS

October 7, Interactive sections

On October 7, 2015 within Youth day there have passed two parallel interactive sections «Gas — fuel of the future» and «Gas Hubs. Gas Exchange» during which it was possible to hear the opinion of leaders of gas industry about natural gas as the most economically reasonable, eco-friendly and technological fuel source, and also about the stimulation of development of gas as an international and even global product by creation of gas hubs and the exchanges.

In the first section «Gas — fuel of the future» experts argued on a role of natural gas in the world economy of future. As moderators of section Pavel Metelev, the representative of the St. Petersburg state university of economics, and Grigory Shevchenko, Senior Account Manager, E.ON Global Commodities SE have acted.

In the second section, gas hubs and the gas exchanges have been considered as catalysts in the course of formation natural gas as the main leader in a world power landscape. Marina Utevsкая, the representative of the St. Petersburg state university of economics, and Geert Greving, the director of external communications of GasTerra moderated the section.

Grand-prix

From March 29 to April 9, 2016 internship for the Russian national students team which won the international «Youth Contest: Energy today and tomorrow» which has passed on October 7, 2015 within «Youth day» V St. Petersburg international gas forum has taken place. The trip was organized by «The Higher Economic School» of the St. Petersburg state university of economics with financial and organizational support of the companies «Gazprom», «Energy Delta Institute» and «Uniper».

During all training days participants - five students of basic higher education institutions of «Gazprom» from Moscow, St. Petersburg and Tomsk - have had an opportunity to get acquainted with all production chain — from production to transportation and storage of gas. The trip has passed in three stages: in Russia, in the Netherlands and in Germany.

Youth Day participants feedback

Participants had the opportunity to discuss the CBMs in a professional environment, current trends and developments in the oil and gas industry. Such conferences are important not only for the business community, but also for academics involved in research into oil and gas sector. The ability to attend events where professionals from different countries to discuss current issues, research and achievements in the industry - it's not only an opportunity to keep abreast of the latest scientific discoveries, but also a chance to improve their professional skills, and draw up new ideas for development.

*Elena Manzuk,
Saint Petersburg state university of economics..*

It was a pleasure to be part of the youth day in St. Petersburg and especially in the Contest Energy today and tomorrow. I really liked the contest and the workshops and of course the evenings including the party on Wednesday. It is a great chance to get in dialogue with students from Russia, the Netherlands and Germany and also to get in dialogue with business people form energy sector. All in my eyes the Youth day was an unforgettable and fantastic event and it should be repeated the next years. Thanks a lot to all from the organization committee!

*Frederik Berg,
University Duisburg-Essen.*

The question is phrased really broadly. The forum itself was very interesting and I enjoyed being part of it. The Youth Program was very interesting and enjoyable. Learning more about the Russian culture and gas industry has been a tremendous experience. Hopefully I would be able to visit the gasforum again one day and catch up with all the people I met during this very short visit.

*Berend Huisman,
Delft University of Technology.*
